## DIRECTIONS FOR USE

SHAKE WELL BEFORE USE.

### BEEF CATTLE

**All** For beef cattle weighing less than 600 lb (272 kg): Provide orally at the rate of 5 mL/100 lb (45.4 kg) of body weight. Only use a shorter calf nozzle on an application device.

For beef cattle weighing 600 lb (272 kg) or greater: Provide 30 mL orally using appropriate applicator.

**CAUTION:** Follow label directions. The addition of feed of higher levels of this premix containing selenium is not permitted.

**CAUTION:** Do not feed to sheep.

**CAUTION:** Drenching requires a specific process and procedure to ensure safety. If the drenching process or procedure is not properly followed (including use of **only** the Zinpro approved applicator), the incorrect process or procedure can lead to injury or death, with risk increasing in calves under 500 pounds. Zinpro is not liable for any damage or death caused by incorrect applications.
